MOLIMED[®]

Edelstein Adapter Gem Stone Adapter

MOLIMED® GSA

8mm acrylic-support with gem stone powder

- The support can be mounted in the front of the MOLIMED®pen and MOLIMED® color scan.
- The grid structure of the gemstones modulates the vibrations of the photons of the color light.
- This results in novel, hitherto undetected effects in the irradiated tissue.
- The use of gemstone powder in the beam path of the light makes the application very simple.
- With this technology, even opaque stones such as the black tourmaline or the very expensive ruby can be used.
- Delivery in EVA hard foam case with instruction manual and overview table.

Please note!

After the treatment, the support must be cleaned with soap water.

Warranty

All MOLIMED® products are warranted for 24 months starting from purchase date against defects in workmanship and materials when used for their intended purpose and maintained according to the instructions. This warranty is limited to repair or replacement free of charge. Accidental damage, misuse, scratched light conductors, wrong cleaning, tampering or lack of prescribed maintenance invalidate this warranty.

Please note that the MOLIMED® GSA are no medical devices. They should be used only for wellness purposes and on his own responsibility. The devices cannot substitute an examination by a medical professional.

Application

1 Amethyst

Amethyst crystals transport colors into the tissue. Amethyst exudes light like a thousand rays of needle like laser beams which easily penetrate into tissue and bone. With an amethyst crystal attachment, every color can be carried to points in the body's tissues, joints, brain, muscles, tendons, etc. Even as Amethyst projects colors into the body, the quality of the colors is not changed.

With Amethyst there is no energy field created as happens with the clear quartz crystal. With clear quartz crystal the field is like a cloud, but with Amethyst there are penetrating rays.

1 Amethyst

Amethyst dissolves blockages of any kind. It brings everything back to flow. To bring something back to flow, you have to dilute it. Stored energy can be too much energy. By diluting the energy it flows again. Apply Amethyst to dilute energies in the blood, lymph, liquid, or acid.

Apply with all colors according to color therapy protocols.

2 Apophyllite

Element: Earth (matter)

Apophyllite is the stone for addressing the cells in the body. Apophyllite generates resonant vibrations for the body's cells, including all aspects of matter, energy, and information. It acts equally for all of these. Apophyllite brings the light to the cells, and the colors you choose determine which part of the cell is addressed.

Each color resonates a different part of the cells, and these resonant vibrations stimulate the functioning of the cell and thus lead to a normalization.

2 Apophyllite

Application with Apophyllite and the colors

color	application, effect
red	Nucleus DNA. Cancer-like tissue irradiated with red supports the repair and regeneration of the DNA.
orange	Cellular energy materially
yellow	Cellular energy mental
green	Cell growth, cell division
blue	Cellular fluid. Ulcers and slow-healing wounds irradiated with blue and violet support exchanges and normalization of cell water.
violet	Cell wall. The cell wall is crucial for the nutrient supply of the cell.
RGB	A color pass through the rainbow colors with Apophyllite can be used as cell normalization program. Thus can influence and regulate: growth disorders, ulcers, cancer, poorly healing wounds, nerve damage, burns, brain degeneration, eye diseases etc.

3 Aquamarine

Element: Water

Aquamarine creates a force field like a disk, or a cylinder. If the center of the cylinder is kept at a point on the body, the point opens, it expands. All blockages are dissolved. Energy and color can freely enter and leaving the body. Aquamarine is used for the opening of points, for energy blockad, lymph stasis, biliary stasis, swelling, etc. Aquamarine is generally applied in obstruction of the flow of energy and liquids.

The effect of Aquamarine is to open, making a port, prepare for other treatments, entering or leaving. Open chakras or open points for treatments with other colors, oil or essences.

3 Aquamarine

Application with Aquamarine and the colors

Open all chakras with the traditional color for the chakra. Treat local points with color therapy for stimulation and opening.

color	application, effect
yellow	Irradiation of lymph points and lymph glands promotes lymph production. Before application ensure that no lymph congestion exists.
green	Irradiation of bile points stimulates the flow of bile.
violet	Before each BlueBrain treatment, the forehead chakra should be opened with purple. This increases the willingness to accept changes and reduces mental resistance.

4 Quartz

Quartz generates a big, strong force field with each color. It amplifies the energy and strength of the color. It acts at a distance and with body contact. The enormous energy that is produced with quartz must be received and distributed in the body. It should only be applied when the body's energy is already able to flow. If an energy congestion exists, first use aquamarine to clear the congestion, then use the clear quartz.

With a Quartz adaptor, apply all colors according to color therapy protocols.

4 Quartz

5 Calcite

Calcite attracts and pulls energies from body fluid, energy systems, emotions, or tissues. What it extracts will be pulled in the direction of the light source. The calcite adapter is bent so that the emerging energy can flow away.

What is extracted can be regulated through the choice of colors.

5 Calcite

Application with Calcite and the colors

color	application, effect
red	Energy, inflammations
orange	Emotions
yellow	poison, emotions, feelings
Green	extracts growth, life. Apply for tumors / cancer, ulcers
blue	extracts cold, depression, mental inertia, blockades, physical and mental limitations
violet	physical and psychological trauma, obsession, stubbornness, prejudice, limitations

6 Rose quartz

Rose quartz creates a strong wind with the energies. While clear quartz generates an energetic cloud that can be applied locally, rose quartz generates a flow of energy.

Calcite condenses, draws or aspirates. Rose quartz blows the energy. Use it to clean, dry or cool. Inflammation can be treated with rose quartz and blue light, soothe, decongest, cool.

Rose quartz acts as regulating the flow of all fluids in the body. Bloodstream, lymph, bile, cerebrospinal fluid, etc. Before using Rose quartz to stimulate the flow of fluids and their energies, be sure there is no stasis and congestion. If there is an energy congestion, first dissolve it with Aquamarine.

6 Rose Quartz

With a Rose quartz adaptor, apply all colors according to color therapy protocols.

7 Tourmaline

Element: fire

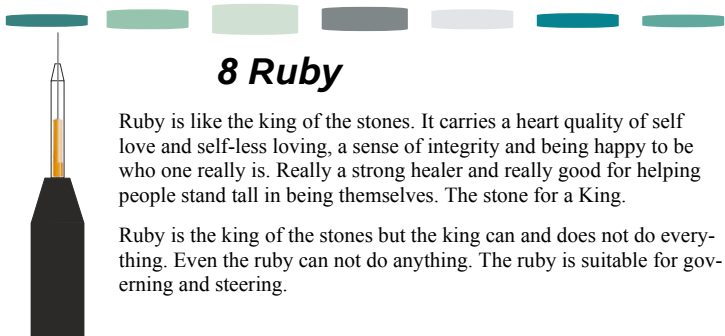

Tourmaline generates heat. One can think of it as if a red-hot ball with the size of a hazel nut is formed at the light-emitting tip. The heat is spatially limited.

As light passes through the tourmaline, a long wavelength photon is generated which oscillates in the infrared range and generates heat. This application of color heat is similar to using Moxabustion in Acupuncture.

7 Turmaline

Application with Tourmaline and the colors

color	application, effect
red	Tourmaline with red is hot and burns. Application instead of moxa
orange	Creates well-being, confidence, hot love
yellow	Burns mental and material poison. Use in anger, choleric, liver problems, rheumatism, gout, applied to victims of mobbing, stress
green	Green means growth. Heat burns green. Application in ulcers, cancer, boils etc.
blue	Tourmaline is heat. Blue is cold. The effects cancel each other out. No use.

8 Ruby

Ruby is like the king of the stones. It carries a heart quality of self love and self-less loving, a sense of integrity and being happy to be who one really is. Really a strong healer and really good for helping people stand tall in being themselves. The stone for a King.

Ruby is the king of the stones but the king can and does not do everything. Even the ruby can not do anything. The ruby is suitable for governing and steering.

8 Ruby

Application with Ruby and the colors

Color	application, effect
Red / infra-red	Ruby in the light beam acts like a silver acupuncture needle, sedating
Yellow	Ruby in the light beam acts like a golden needle, toning.
Green	Trauma and pain in muscles, ligaments and tendons are alleviated. Irradiate pain points for 1 to 2 minutes. For mental trauma the forehead is irradiated.
